#### WARNINGS AND WARRANTY

- The warranty does not cover all the models tampered by third parties or those returned not in compliance with the original features. In case of technical modifications made by third parties without the authorization by the distributor, the buyer is responsible for possible damages or breakages. The user is asked to fully respect and follow what recommended in the use and maintenance manual for his own and other people's safety.
- S.M. Racing is not responsible for breakages or damages due to poor maintenance or wrong assembly, excluding from the warranty spare parts replacement
- This warranty covers the engine damages due to wrong-shape or material flaws of the parts or non correct assembly by the manufacturer.
- The warranty includes only the spare parts. Transport costs are excluded and are to be paid by the user.
- The warranty excludes the damages caused to the user or third persons due to:
  - Inappropriate use of the engine
  - Professional use of the engine
  - Non authorized by S.M. Racing maintenance works or services
  - Engine breakages or damages ascribed to external objects
  - Non original spare parts or however supplied by third persons
  - Improper assembling made up by third persons
  - Engine stress due to excess loads
  - Deterioration of the engine or its parts due to non suitable places storage
  - Irregular or failed maintenance
  - Usage of not suitable lubricant or fuel
  - Dirt or or foreign body also aspirated
  - Overheating caused by improper use beyond the advised terms
  - Accidental falls
  - Spare parts normal wearing
  - Modifications to the spare parts or to the engine itself not authorized by SM Racing
  - User or third persons' negligence

S M Racing obligations are limited to the replacement or repair of faulty parts, according what is necessary to avoid the malfunctioning due to material faults.

S.M Racing or the engine distributor is not responsible for problems or damages caused to people, animals or objects during the entire life of the engine.

This product is not certificated and it is dedicated to amateur aircrafts. The Buyer takes the risk of its use and is fully aware that, while using, this engine may suddenly stop causing makeshift landings which can cause death or injuries. This product is not covered by product liability. Those who use this product flying, or just starting it, take all the risks related to this activity.

In case of warranty request, the final customer shall delivery part or the entire engine to be examined to a SM Racing authorized dealer, the customer shall show the warranty coupon duly stamped and the delivery certificate duly signed by the Buyer and the Seller previously sent to SM Racing for the warranty activation.

The warranty period lasts one month for all the models used for sport at a competitive level

- The warranty period is one month for all models used at a competitive level and used for sport activities

I HEREBY ACCEPT THE ABOVE MENTIONED WARRANTY TERMS DESCRIBED IN THE SM Racing WARRANTY MANUAL, I agree to the processing of my personal data for marketing purposes, which are confidential and they cannot be diffused to third parties.
